How do you feel?

It could help if you start to write down all the things that you want adults in the meeting to know. You can have a go with these questions if you want...

Is there anything you are worried about?

What is going well at the moment?

What can people do to help you?

Child Protection Conferences

A guide for children and young people

Quality Assurance and Involvement Service

What is a Child Protection Conference?

It is a meeting where people get together to make sure that you are safe. In the meeting people will talk about you and your family and any help that your family needs.

Who will be there?

There will be people you know at the meeting, like your Social Worker, someone from school and other people you might not know, whose job is to keep children safe.

What happens at the conference?

The Chair is in charge of the meeting. They will ask everyone what they are worried about, what's going well and what is helping.

Everyone in the meeting talks about the good things and difficult things happening in your family. They will make a plan of things people are going to do to help you and your family, and ways to keep you safe.

It's really important you have a say and tell people how you feel!

Having a say!

An advocate is somebody who speaks up for you in the meeting. You can have an advocate if you want one - they can come and meet you at home or school and tell you more about how they can help.

Can you go to the meeting?

If you want to come we need to make sure this is ok and it's the best thing for you. We will speak to your Social Worker, parents and the Chair. Get in touch with us on our number if you need to speak to us.

Everyone sits round the table together and thinks of a 'plan' of things people will do to help!

People from your family and any other workers will be asked to come along too
