Foreword

I am really pleased to introduce our Race Equality Strategy – We Care – that sets out our commitment to the principles of diversity, equality of opportunity and inclusion, and recognises the importance of adhering to these principles at all times. Diversity, equality and Inclusion together form a positive approach to recognise that everyone is different and can make and bring their own unique contribution, experience, knowledge and skills to the work across the Department. Our focus on Equality, Diversity and Inclusion recognises and values the differences in each of our members of staff and our belief that everyone has the right to be treated with dignity and respect. We want to create an inclusive culture that nurtures talent and allows every individual to flourish and reach their potential.

On 12th August Leicestershire County Council signed the Race at Work Charter This pledge to act on race equality is a demonstration of the Council's commitment to ensure that all staff, regardless of race, colour or ethnicity, are afforded equal opportunities in the workplace, for a better today and future. The Department Race equality Strategy supports the pledges set out in the Race at Work Charter:-

- 1- **Appoint an Executive Sponsor for race**
- 2- **Capture ethnicity data and publicise progress**
- 3- **Commit at Board level to zero tolerance of harassment and bullying**
- 4- **Make clear that supporting equality in the workplace is the responsibility of all leaders and managers.**
- 5- **Take action that supports multi-ethnic career progression**
- 6- **Support race inclusion allies in the workplace**
- 7- **Include Black, Asian, Mixed Race and multi ethnically diverse-led-enterprise in supply chains**

We all have a role to play in this strategy and as the Director of the Department I am personally committed to supporting the implementation of this strategy and working to eliminate inequality and racism.

Introduction

- The Council published its fourth Equality Strategy in 2020, carrying our commitment to make Leicestershire a fairer place in which to live, work and feel safe.
- To show we meeting the Public Sector Equality Duty under the Equality Act 2010, we publish relevant equalities information and set specific, measurable equality objectives every four years and specific objectives and the action plan are published annually on the council's website – couldn't find it at <https://www.leicestershire.gov.uk/about-the-council/equality-and-diversity>
- C&FS leaders recognise that if true progress is to be made, that the department requires its own strategy that ensures that the profile of the department is visible and sets the tone and expectation of ownership and leadership for those in positions of authority and leadership.
- The C&FS leaders champion the move towards being an anti-racist organisation, recognise the impact of adversity on progression, seek actions to provide opportunity and to challenge discrimination through learning and reflection.
- This document serves as a sub-strategy to the Council's Equality Strategy.
