## 1 Summary

Buckinghamshire Children's Social Care Resolution Process sets out the purpose and procedure for Independent Reviewing Officers (IRO's), Child Protection Conference Chairs (CP Chairs) and Family Group Conference Coordinators (FGC Coordinators) when raising a concern in relation to a child who is receiving a service from Buckinghamshire Children's Social Care. This serves to avoid 'drift' and to ensure that we make timely decisions based on clear assessment.

It is always the intention to seek resolution for any concerns as soon as possible and informally whenever possible.

By replacing the current process that involves sending emails and word document attachments that have to be saved onto LCS case notes and Content Server, this proposal is to have a form on LCS that captures every resolution raised by an IRO, CP Chair or FGC Coordinator. The form would be a 'standalone' form and does not impact on workflow. By using this method we will be able to collate real-time information about the progress of all resolutions, what the resolution was and what impact the resolution had for the child. The concerns are collected into themes so that we can monitor areas for team and service improvement. Because the form includes all responses to through the process of each resolution, it will make it much easier for managers to see what has taken place at the stages before it reaches them.

# 2 Resolution Form

#### 2.1 Index

#### 2.2 <u>Resolution Form – Main Heading</u>

Pre Notification		
LCS Number	Child's Name

Most of the information will be brought in automatically from the child's demographics. If there is no recorded *Team Manager* or *Allocated Case Worker* they will need to be recorded here. This will then feed back into the child's demographics.

Multiple concerns can be raised by using the green plus icon on the right. The *Concern Raised* can be selected from the *Category* drop down list.

#### 4 Miscellaneous / Troubleshooting

#### 4.1 Missing Information after Retracting un-finalised delegated section

An assessment section has been delegated out to a worker. The worker fills in their answers but doesn't click the *Finalise My Assessment Sections* button. You decide to retract the delegated section, as you need to finish off the *Resolution Details* section. When retracted all of the answers are blanked out, and it appears that the question has not been answered.

#### 4.1.1 Solution

Ask the person who has the delegated section to Finalise it. Only retract the delegated section if you are prepared to lose the information recorded.

If the section has already been retracted there is unfortunately nothing that can be done to get the information back.

#### 4.2 Resolution Form not updating

When viewing the Resolution form you are not able to see that answers to the questions, when the delegated person has written something and finalised the form. It appears as if the question hasn't been answered, but if anyone else looks at the form the answers can clearly be seen.

#### 4.2.1 Solution

Go into the form, and then click the Close button

Save Save	Finalise Assessment	ReAssign	Close

Once clicked if you then go back into the form, all the recorded information will show.

This is happens if you click on the *Home* button or just leave the page. If you do this the following message will pop-up

Do you want to leave this site? Changes that you made may not be saved.					
	Leave	Stay			

If you click on the *Leave* button, it will take you out of the form, but also leaves the form cached the way it was. This means any changes made by the person the form is delegated to will not be seen. In order to prevent this from happening you must always click the *Close* button after you have delegated the form.
