

Name of the child(ren):

•

Case status (mark all that apply):

EH	CIN	CP	CIC	PLO	C/Proc	SO	PO	EHCP
----	-----	----	-----	-----	--------	----	----	------

Why are the children currently open to social care?

Brief overview of the case and the reason for the referral.

(To be completed by the social worker and to be updated when there is a significant change to the plan).

Points to consider:

- What was the basis of the referral, who made it and when
- Brief overview of what actions have been taken since this time
- How are they continuing to be supported, and why?
- This would be in line with what is expected in a case summary.
- This would need to change if there is a change in the plan, i.e step up, step down and why

What has changed since the last supervision?

(To be updated for each supervision; think about what is working well, what we are worried about, what is life like for the child – what is the impact on the child).

- This should be based on what has happened since the last supervision, not a general overview of the case
- What have WE done as a service since the last supervision.
- Think about what we are worried about and what is working well.
- Incorporate the impact of our intervention on the child/ren throughout and what this means

Case reflection (How safe do you think the children are and why? 1st and 2nd order change/family functioning/hypothesis, what does good look like and what do we need to do to achieve it?).

(Completed by manager in supervision)

- This about the impact scale 0 being unsafe, 10 being safe and why. What is impacting on this safety and what could we do to improve this.
- What are curious about and our hypothesis
- Have the changes been made 1st or 2nd order why?
- Have we thought about the families role in keeping the children safe? Sustainability planning and FGC's?

How is the case progressing? Have we completed the agreed actions agreed and what further actions are needed for case progression to reduce risks & build resilience?

(Suggestions actions to be added by social worker in prep and to be discussions and expanded on within supervision).

ACTIONS TO BE COMPLETED <i>(Ensure we consider actions within the child's plan)</i>	TIMESCALE <i>(Think SMART, no ongoing etc)</i>	Update in supervision. <i>(Has the action been completed?)</i>
SMART actions with clear timescales		If new action, write new action so this is clear
The SW to think about actions prior to the supervision and to elaborate during supervision		Update what progress has been made during each supervision to achieve the action. If none, why
Try and encourage the SW's to think of the actions from the discussions held		Completed actions from prev supervision to be deleted once uploaded
Actions which will help the case progress, not just process driven actions.		

Relevant dates:
(Ensure all next/last meetings are included, e.g core group and RCPC)

	Date:	Is it recorded? (if not, this needs to be an action).
Visits undertaken since last supervision:		
Next visit date:		
Last meeting:		
Next meeting date:		

Any other important dates, e.g. – filing dates/court hearings:
