

Your voice matters

My name is...

People I am close to...

People who I want to see this...

People I want to be invited to meetings...

It would really help me if you could...

I like it when...

It annoys me when...

Things I like about the way I am cared for...

Things I would like to change...

Things that are good or bad about school / college / training / employment...

Do you have any worries, complaints or compliments?

Think big! What would you like to do now or in the future?
