What is Child Sexual Exploitation?

“Child sexual exploitation is a form of sexual abuse in which a child or young person is exploited, coerced and/or manipulated into engaging in some form of sexual activity in return for something they need or desire and/or for the gain of a third person.

The ‘something’ received by the child can include both tangible items such as food, somewhere to stay, drugs, alcohol, cigarettes or money and more intangible ‘rewards’ such as perceived affection, protection or a sense of belonging. Fear of what might happen if they do not comply can also be a significant influencing factor.

Common to all these scenarios is an imbalance of power in favour of the abuser and some degree of coercion, intimidation, exploitation, violence and/or enticement of the child or young person.” (DSCF 2009)

The abuse can be perpetrated by groups or individuals, and by adults or peers.

- Once a referral is received and accepted, a CATE practitioner will contact you and your child to introduce themselves and begin

discussions in order to identify the level of risk of CSE your child may be exposed to.

- We will always work to keep you informed throughout this process.
- If your child is identified as high risk, you and your child will be invited to attend a multi-agency strategy meeting.
- Strategy meetings are held under Telford & Wrekin Safeguarding Policy.
- A multi-agency safety plan will be developed to manage and reduce the risk of CSE.
- If your child is identified as low to medium risk, we will still offer one to one support and deliver a scheme of work to educate your child and raise their awareness of CSE.

We will require you as parents/carers to consent to any work we undertake if the young person is under the age of 16.
