

Investing in Children

# Children in Care Council (CICC)

## Who we are

We are a group of children and young people who are looked after by Durham County Council.

We bring our ideas and suggestions to our meetings and work with the adults within the council to improve things and feedback.

We work together with Durham County Council to raise the issues of children and young people and make changes so that it's better for anyone living in care in the County.

Check out our **NEW** website

Find out about our meetings, what we have been involved in as well as find useful information and take part in surveys.

## Have your say

Speak Out · Be Heard · Make Changes

Is there anything you would like to change?  
Do you have ideas to make things better?  
Why not come and join us?

## "Working Together!"

The CICC is supported by Investing in Children CIC, a Children's Rights organisation working in partnership with Durham County Council's 'Children's Care' service.

We meet as a Children in Care Council (CiCC) every month to talk about what it's like being in care and how things could be better.
