

Delivery Models

The right help at the right time

Early Intervention and Support

Working as early as possible with families to bring together extended families, resources, and communities to bring about change

Brief Intervention

Assessing and offering short term interventions simultaneously to support change

Family Safeguarding

Co-located specialists, adults’ practitioners working alongside children’s practitioners to offer a whole family approach, utilising MI to support change

Contextual Safeguarding

Working with young people where there are extra familial risks, working alongside families and communities to create positive change

Attachment, secure base, trauma informed

Working with children, young people, families, and carers in understanding the importance of containment, stability, security and responding to trauma

Outstanding Practice Framework Practice on a Page

Our shared visions and values to improve outcomes for children and families will drive practice

We want to apply solutions to complex problems in the simplest way

Techniques

Genograms, Motivational Strengths Based Interviewing, Circular Questions, Social GRACES, Family Scripts, Safe Uncertainty, Hypothesising, Group Supervision
