

1

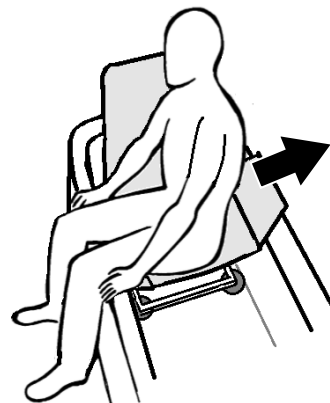

Stand in front of bath, with back of knees touching rim of bath.

Reach back with hands, place on bath

2

Sit down and slide back onto seat.

3

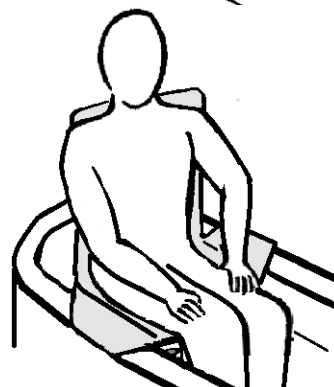

Lift feet and pivot round on seat.

4

Lower legs into bath.

Ensure that balance is stable before lowering bathlift.

- N.B.**
- Ensure that bathlift is raised to height of rim of bath, has charge, and that it is securely fitted before attempting transfer.
 - Process to be reversed for transferring out of the bath.
