Organisational Structure and Management of the Service

Within Bradford to Adopt (Bradford Children and Families Trust) the role of the Agency Decision Maker is held by the Assistant Director for Safeguarding, Review and Learning, who is responsible for –

- Should be placed for adoption decisions for all children for whom Bradford Children and Families Trust holds corporate responsibility.
- Adoption matches recommended by One Adoption West Yorkshire for children for whom Bradford Children and Families Trust holds corporate responsibility.

In the absence of the AD, the responsibility for these decisions sits with the Executive Director of Bradford Children and Families Trust.

The role of the Responsible Individual is also held by the Assistant Director for Safeguarding, Review and Learning.

The role of the Registered Manager is held by the Assistant Director for Localities and IFD.

The RI attends One Adoption Management Board quarterly to have an oversight of strategic matters, including outcomes against key performance indicators, national standards and budgets.

The RM attends the operational leads group quarterly to review and discuss practice and procedural matters.

This will be underpinned by quarterly meetings between the two agencies to review performance and service delivery matters.

The Adoption Service is based at –
Sir Henry Mitchell House
4 Manchester Road
Bradford
BD5 0QL

The staffing structure for One Adoption West Yorkshire can be found in their Statement of Purpose which can be accessed at [About One Adoption West Yorkshire | One Adoption](#).

Adoption Panels

One Adoption West Yorkshire operate adoption panels on behalf of the 5 Local Authorities. There are 8 panels a month who consider children and adopters from across the region.

Panels are constituted in accordance with current legislation, regulations, and guidance. They each have an independent chairperson with significant experience of family placement work, and there is a central list from which each panel is drawn. There is no legal maximum number of panel members at each panel but in practice, usually a maximum of 6 or 7 attend each panel, including the panel chair. Medical advice to the panels is provided on a rota basis. Panels are serviced by a designated panel administrator, and have access to legal advice if required. The professional advice to the panels is provided by an agency advisor.

Current membership includes individuals with personal experience of adoption (adopters, birth parents and adopted and care experienced adults) and other independent members from legal, educational and therapeutic backgrounds. It also includes social workers with direct experience of adoption work and others based in various related settings, including children looked after and fostering teams. The panels are as far as possible balanced in terms of gender, age, sexual orientation ethnicity, and experience.

The functions of the panels in relation to adoption matters are:

- to recommend whether prospective adopters are suitable to adopt a child(ren)
- to recommend whether a proposed match between a child(ren) and prospective adopter(s) is a suitable one
- in circumstances where a child is relinquished for adoption and no placement order is applied for, to recommend whether or not the child should be placed for adoption.

The panels make recommendations based on written reports prepared in advance by the child's social worker and family finder and the prospective adopter(s)' adoption social worker; and on the social worker(s)' and/or their manager(s)' contributions to panel discussion. Social workers, and where appropriate their managers, are expected to attend panel to discuss and clarify any issues relevant to the application under consideration. When the approval of prospective adopter(s), or a proposed 'match' between a child(ren) and his/her/their prospective adopter(s), is to be considered, the potential adopter(s) have the option of attending panel in person.

When the panel considers the case of any Bradford child who is subject to an adoption plan, the recommendations and advice of the panel are referred, along with the final minutes of the meeting, to the Bradford to Adopt (Bradford Children and Families Trust) agency decision maker, for a decision to be made and conveyed to all parties within the time scales laid down in the Adoption & Children Act 2002.

Children's Guides to Adoptions

There are two children's guides to adoption as part of the contract with One Adoption West Yorkshire. These are to be used with children of different ages to introduce them to the concept of adoption and to help them to understand what will happen to them if they have a plan of adoption.

These guides to adoption are given to children who have an appropriate level of understanding regarding the plan for them. Each guide contains an age appropriate summary as well as how a child can contact the children's commissioner for England and/or Ofsted, if he/she wishes to raise a concern.

The guides can be accessed from [About One Adoption West Yorkshire | One Adoption](#).

Notified Adoptions

Enquiries regarding non-agency adoptions (adoption not arranged through the Voluntary Adoption Agency), for example the adoption of a child who is not in the local authority care (step parent) are shared with One Adoption West Yorkshire who undertake the initial meeting and subsequent assessments.

Inter-Country Adoptions

Adopt for Bradford provides an inter-country adoption service in partnership with services provided by One Adoption, providing counselling and services to Bradford residents who wish to adopt from abroad. Once a child is placed in the Bradford area Adopt for Bradford monitor in line with the child's country requirements until the UK order is completed. Where countries require a letter of undertaking from the local

authority Adopt Bradford will state that they will supervise the placement and take responsibility for the child.

Systems for the Monitoring, Quality Assurance and Evaluation of Services

Children's permanency plans and adoption plans are monitored by the Independent Reviewing Officers, Team Managers, Service Managers and Heads of Service. The audit system also regularly quality assures the child's journey.

The quality of services provided to children who are subject to an adoption plan is also monitored and quality assured via a number of different systems, including:

- Social work supervision.
- Quality assuring of child permanence reports by both the social worker's responsible manager and the adoption adviser as well as the ADM.
- The role of agency decision maker scrutinising the available reports and where required speak directly to social workers and their managers in order to ensure that all appropriate enquiries have been made and actions taken prior to agreeing either the adoption plan for a child [the SHOBPA decision] or any proposed 'match'.
- Audits.
- Feedback from children, young people, birth families and adopters.
- Tracking of children with plans for adoption monthly between One Adoption West Yorkshire and teams responsible for case management by service managers and Heads of Service.

An over-view of the services provided to children who are subject to adoption plans is also maintained through quarterly meetings between the RI / RM / One Adoption West Yorkshire which includes review of the annual and half-year service reports. This meeting also addresses any practice related issues including those related to recruitment of prospective adopters, progressing children's plans, matching and placement support.

One Adoption West Yorkshire internal systems for the monitoring, quality assurance and evaluation of their services are detailed in their statement of purpose which can be accessed at [About One Adoption West Yorkshire | One Adoption](#).

The Independent Reviewing Mechanism (The IRM)

Access to the IRM is restricted to applications from potential and approved adopters where the agency has decided not to approve them, or to terminate or change the terms of approval. All services relating to the assessment and approval of adopters are provided by One Adoption West Yorkshire under the RAA contract, and One Adoption West Yorkshire is responsible for managing any appeals to the IRM in respect of any aspect of this service.
